A-Brews Tap & Grill have been running with Valpak since June 2016. Sonia started with Valpak because she had just opened her new restaurant and heard good things about Valpak and the success that others businesses received. When we asked Sonia how Valpak was performing and if she would recommend us to other business owners she said *"We are seeing lots of traffic coming into our restaurant. This is my first business and I am very happy with the results we are receiving from Valpak. We love the Digital aspect of our promotions and my sales rep lets me know of my reports. We are only doing Valpak right now and we are seeing 15-20 new customers per month. I would highly recommend Valpak to every business owner as it definitely helps you with your business as we see lots of coupons coming in!"*
