Dracut Kitchen & Bath's primary objective when advertising is to raise their business profile & awareness, promote special offers and products and to generate new business. Charlie Thellen, owner of Dracut Kitchen & Bath has tried other forms of direct mail (tear sheets) but strongly agrees that Valpak has outperformed everything he has tried in the past. When asked about his Valpak Program Charlie stated *"I was in Valpak 2 years ago and now I'm back. Valpak went out last month and we got a \$19,000.00 Bathroom Job! Keep the coupons coming!"* When asked about the Valpak Digital component Charlie went on to say *"We love the Digital. No one read newspapers anymore. The way of the future is digital"*.
