James Hanley, owner of Family Car Care & Tire Center first started mailing with Valpak back in January 2017. When we asked Jim why he stated *"Julie, our sales rep was very persistent after several months, I decided to give Valpak a try and I am so glad I did."* We then asked Jim how working with Valpak changed his business, *"We have increased our sales and receive new customers every week. We have GREAT Customer Service with Julie as our Rep. I also love Valpak's Digital and Results tracking reports as they give me piece of mind that our programs are working, which they are."* We then asked Jim how Valpak compares to other forms of advertising he is doing and he went on to say *"Valpak definitely outperforms Spectrum & Concord Monitor. There is nothing out there that compares to Valpak except word of Mouth."* When asked if he would recommend Valpak to other business owners Jim stated *"Yes, because Valpak outperforms other advertising companies out there. I will continue to advertise with Valpak."*
