dental insurance.  
Expires 10/31/14

Kingston Family Dentistry is very pleased with Valpak. We get quite a number of NEW patients every month. Our patients' needs vary quite a bit. Some patients have their routine two cleanings per year, and some require more extensive mouth care for better overall health. We're so happy to help people in and around our community, and Valpak helps us with letting people know we are accepting new patients. We also use Supercoups to advertise, and that has been working well for us too. However, Valpak does bring in MORE patients for us. Thank you Valpak.
