Tim's primary reason to advertise is to generate leads for his business. Tim does a great deal of Direct Mail and finds that Valpak has outperformed everything he has done and his ROI with his Valpak Programs is much higher than the Direct Mail Pieces he has been doing. Tim states "I've done a TON of direct mail this year and had overall good results, but Valpak is getting more response. Plus, it's a fraction of the cost! Valpak has been off the hook this year!" Tim also takes advantage of Valpak's Digital Programs and is very happy with the success he is having with Valpak, plans to stay with his Valpak programs and recommends them to any business owner looking to grow his or her business.
