Zach Dion advertises The Nashua Garden Restaurant to promote new specials offers and to invite new customers into his restaurant. Zach does other forms of advertising but since partnering with Valpak he strongly agrees that we outperform them all, stating *"I have been a customer for over 6 months, we love it. Customers come in for lunch with the coupon; I love how our business name is out there. I recommend Valpak to other businesses."* Zach also takes advantage of Valpak's Digital programs and when asked she stated *"The digital is great. The world as we know it is changing to the digital side. I love how Valpak is partners with Google. We will continue running with Valpak!"*
