I started using Valpak back in 2014. We receive 30 to 40 coupons back every month. We love the Digital part of the Valpak program as well as we see a number of those as well. We just resigned in October and within on day the coupons started rolling in. I would recommend Valpak to every business owner who wants to grow their business. We have used other forms of advertising and feel that Valpak outperforms them all. We also receive GREAT Customer Service and have very happy with Valpak!
