Service Experts has been running with Valpak since June 2016. They first started back up with Valpak, as they were a previous customer some 15 years ago, because of all the new tracking and on-line features Valpak now has. When we asked Lynda Hacey Norwalt, co-owner of Service Experts to tell us about her success in the Valpak program she stated *"Call tracking really helps us keep track of profits each month and we have a good call history. We are very happy with the results as we have seen about 29 New Customers and add on services. Valpak outperforms Community Values & Spectrum as people tend to cancel from them. I would recommend Valpak because it works, people recognize the name, the content is good and consumers are looking for it."*
