Mike Munson, owner of Spartan Pizza & Restaurant first started with Valpak back in April 2018 to bring in more customers, build awareness in his marketplace and to grow Sales. We asked Mike to tell us how his Valpak programs are working for him and he said *"We have been running for 4 months, received over 138 phone calls and we receive over 20-30 coupons back per month."* We then asked Mike if he takes advantage of Valpak's Digital & Tracking programs and how Valpak compares to other forms of advertising he has done, Mike went on to say *"I love all the tracking reports Valpak provides to me and the ROI. Valpak bar far out performs Spectrum Monthly. We love Valpak and we just resigned up for 6 more months!"*
