"Of all the advertising we have looked into and done, we have been most pleased with the success we have had with Valpak. And we still are. They are great and very easy to work with as well. They have been super accommodating with efficient. Being a new, small business we were reluctant to put an ad in Valpak or any sort of advertising at the time because of cost. **Within the first week the coupon was out, not only did friends and family notice, it was noticed by many others. We gained at least half a dozen new clients! Every time we had a new client call and mention the Valpak, we all got so excited! It works!! Love it! So... We signed up for 4 more months!!** Can't wait to hear from and meet more new clients!! We like to add, we absolutely love Scott Gianitsis, the Valpak sales rep who has helped us. He has been absolutely wonderful; he is so friendly and easy to talk to. When he can, he finds time to just pop in to say hello and see how business is going. This shows me he care's and loves what he does and his company. He is very passionate about Valpak. It is such a rarity to find people who love their jobs and who they work for. We find it you have a happy customer. So we say, Thank you Valpak for not just taking care of your employees but also customers like us who share the same passion!"
