**We Are An Independent Family Owned & Operated Bakery • Café • Eatery Located Inside The Residences!**

*"We had just opened our café in July of 2016 after selling at the local farmer's market for the last year and a half. We began advertising in the Spectrum. We got some response from that advertising, but not what we were looking for. Michelle from Valpak came to see us, and went through the options they had. We were skeptical, as neither of us ever opened out Valpak envelopes when we received them, and were not sure how much many people actually did. We decided to start advertising with them as Michelle seemed confident the Valpak could help us. We were blown away by the response we have because of their mailings. Michelle was excellent to work with. We feel she went above and beyond just selling us advertising. She was right there working with us, giving advice and her professional input in everything we decided. We appreciated doing business with her and Valpak, and we will definitely be doing business with them in the future."*
