Matt Lambert had just bought his company, USA Insulation and started running in the Valpak program back in May 2020 to help build his new business. We asked Matt how Valpak was working for him and USA Installation and he stated *"In one years' time we have reached over \$1 Million in sales. We receive about 10-15 calls a month from our Valpak advertising. We have been running every month and just signed up for our first Valpak Solo Postcard going to 20,000 homes and are extremely excited about that as well."* We then asked Matt how Valpak performs compared to other forms of advertising and if would recommend Valpak to other business owners, he went on to say *"We LOVE Valpak as it outperforms other advertising companies such as Community Values. There are so many markets to choose from and I love the customer service we receive from our Valpak Rep. I would highly recommend Valpak to every business owner because it gets the JOB DONE!"*
